

Equality Impact Assessment (EIA) - Service Specification – Community Eating Disorders

For more information about the equality impact assessment process in commissioning, please see: [EIA Overview and Navigation](#).

Service Specification Equality Analysis	
<p>Has there been a service review analysis? (Yes / No)</p> <p>If Yes please cross –reference. If No, please complete Service Review EIA</p>	<p>No</p> <p>The current service contract is due to terminate in March 2019</p> <p>Following discussion with commissioning and contracting leads in the CCG the decision has been taken to re procure the service and test the market.</p>
<p>What has been put in place to ensure the accessibility and acceptability of the service design?</p>	<p>The current service specification has been reviewed to ensure it meets new national guidelines and local demographic need.</p> <p>The new draft service specification has been developed by both commissioning leads and GP lead for mental health.</p> <p>To provide services that are accessible to all sections of the local population who meet the criteria for the eating disorder service as outlined in the service specification – following national guidelines including NICE. To offer early intervention and prevention strategies whenever this is possible.</p> <p>To working with service users within a model of care that aids recovery and enables them to return to their full potential in day to day life.</p> <p>In particular aim to:</p>

	<ul style="list-style-type: none"> ☐ Improve the service user’s engagement with services ☐ Enable service users to make choices which improve their health and Quality of life ☐ Prevent physical and psychological deterioration ☐ Increase stability and quality in the lives of service users and their <ul style="list-style-type: none"> ☐ Carers/families ☐ Improve social functioning ☐ Promote the service user’s participation in their own recovery ☐ Assist the service user in accessing educational support and work <ul style="list-style-type: none"> ☐ Activities ☐ Assist the service user to develop coping strategies ☐ Provide psychological treatment appropriate to the individual and informed by current clinical evidence.
<p>How does service design reflect the insight gained through engagement (of different population groups)?</p>	<p>Engagement with service users commenced in July 2018 – our first engagement exercise was held on Saturday 23 July at Hull Pride as it is nationally acknowledged there is an increase in the number of gay males who have bulimia and who do not readily engage in eating disorder services.</p> <p>Further engagement will be led by the CCG Communications and Engagement team – led by Colin Hurst – this is part of the developing procurement Project Plan.</p>
<p>Has your equality analysis identified any specific outcomes that need to be</p>	<p>Further engagement will be held throughout the procurement</p>

incorporated into the service specification (beyond what is required in the standard contract?)

process led by the CCG communications and engagement team
– this EQIA will be updated as work progresses

We have already received feedback from one service user regarding her experience which has already helped to inform the new service specification

There is a GP lead for this procurement – Dr. Amy Oehring, as well as clinical input from the Psychiatric Nurse in the vulnerable people team.

How will you feedback to the groups you have engaged about service design?

Survey Monkey

Engagement at Gay Pride

Engagement with service users and carers – we have already received feedback from one service user regarding her experience which has already helped to inform the new service specification

Engagement with Children and Young People who are in transition to adult eating disorder services.
